

My Munich Event Guide

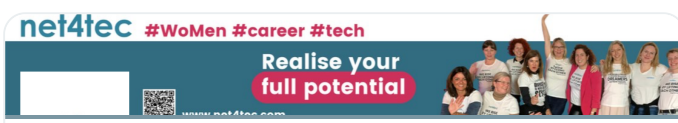

Communities & resources I personally follow to find intellectual afterwork events in Munich

Last month I walked into *SAP Labs* to learn how AI agents can transform our work. And on my way home I thought — I never actually told anyone how I find these events. **LinkedIn** is my #1 source. I follow organizers and companies I want to learn from — that's how I ended up at BMW, Google, and an Agentic AI session. But communities are where it really starts. Three years ago I gave a lecture at **Women's Career Growth Community** on "Evaluate your LinkedIn for Maximum Impact." Now I'm the one in the audience, getting connected to new circles through them.
